EDUCATION

Nanyang Technological University (NTU)

Singapore

Department: National Institute of Education, Physical Education and Sports Science Academic Group

Apr 2020 - Jun 2023

- B.S., Sport Science and Management with Honours (Highest Distinction) | GPA: 4.56/5.00

Republic Polytechnic (RP)

Singapore

Department: School of Sports, Health and Leisure

Apr 2014 - Apr 2017

- Diploma in Sports and Exercise Sciences with Merit | GPA: 3.75/4.00

RESEARCH EXPERIENCE

Research Assistant, Nanyang Technological University

Sports Biomechanics Lab | Principal Investigator: Phillis Teng, PhD & Dr Swarup Mukherjee

Aug 2023 - Present

- Assisting in a project titled, "Screening and Biomechanical Risk Factors for Early Knee Osteoarthritis".
- The project aims to develop a novel screening method to identify biomechanical markers for recreational runners identified to be at risk of early knee osteoarthritis, by utilizing various equipment such as foot pressure mapping, ultrasound, tensiomyography, DEXA and markerless motion capture.

Research Intern, Agency for Science, Technology and Research, Bioinformatics Institute

Biophysical Modelling Lab | Principal Investigator: Chiam Keng Hwee, PhD

Jan 2023 - Jun 2023

- Contributed to a project on data-driven gait rehabilitation of lower limb amputees.
- Implemented generative AI (Stable Diffusion) to enhance existing open-source pose estimation algorithm (OpenPose & DeepLabCut) in identifying lower limb amputee's anatomical landmarks for the purpose of gait analysis .

Undergraduate Research Assistant, Nanyang Technological University

Sports Biomechanics Lab | Principal Investigator: Kong Pui Wah, PhD

Apr 2022 - May 2023

- Contributed to a project analyzing the biomechanical effects of exoskeletal in military personnel.
- Coordinated synchronized gait data collections using VICON on Bertec split-belt instrumented treadmill, Delsys EMG system and loadsol[®] sensors.
- Wrote MATLAB and Python scripts to extract data from c3d files to conduct data processing and analyzed ground reaction forces using statistical parametric mapping (SPM) Python package, spm1d .
- Presented findings at an academic conference [CP3] and co-authored a journal article [J2].

Final-Year Thesis, Nanyang Technological University

Sports Biomechanics Lab | Principal Investigator: John Tan, PhD & Sofyan Sahrom, PhD

Apr 2022 - Nov 2022

- Collaborated with National Youth Sports Institute and Singapore Weightlifting Federation.
- Led the application of research ethics and designed the study protocol of evaluating the validity of a velocity-based training device in weightlifting exercises using VICON 3D motion capture cameras [P1].
- Wrote a MATLAB script to efficiently extract data from c3d files to perform Bland-Altman analysis .
- Received the Best Poster Presentation award at the 11th Lau Teng Chuan Physical Education & Sports Science Symposium.

Undergraduate Research Programme (URECA), Nanyang Technological University

Sports Biomechanics Lab | Principal Investigator: Kong Pui Wah, PhD

Aug 2021 - Aug 2022

- Contributed to the development of a video-based analysis model for assessing treadmill running biomechanics.
- Facilitated over 40 participants' recruitment and utilized Kinovea to analyze running kinematics.
- Presented findings at 2 academic conferences [CP1, CP2] and published 2 journal articles [J1, J3].
- Conferred the title "NTU President Research Scholar" for completing the programme with Distinction.

Undergraduate Research Assistant, Nanyang Technological University

Human Bioenergetics Lab | Principal Investigator: Yang Yifan, PhD

Nov 2020 - Feb 2021

- Contributed to the project assessing the dose-response of leucine on muscle maintenance during weight loss.
- Independently recruited over 20 participants and assisted in anthropometric measurements.
- Verified accuracy of participant's data entry for daily physical activity, sleep, and dietary intake log.

Final-Year Thesis, Republic Polytechnic

Biomechanics Lab | Principal Investigator: Shigetada Kudo, PhD & Alexander Ong, PhD

Apr 2016 - Oct 2016

- Collaborated with Singapore Sports Institute and Singapore Swimming Association.
- Conducted springboard diving kinematics analysis using 2 software, Kinovea and Mokka.

CONFERENCE ORAL PRESENTATIONS

- [CP3] Validation of the loadsol® in-shoe force sensors during walking in military boots under heavy load carriage, 9th Asian Society of Sports Biomechanics (ASSB) Conference, Bangkok, Thailand, August 2023
- [CP2] Two-Dimensional Video Analysis of the Rearfoot Inversion Angle at Initial Footstrike in Treadmill Running, 10th International Conference of Undergraduate Research (ICUR), Virtual presentation, September 2022
- [CP1] Comparison of Rearfoot Inversion Angle at Initial Footstrike Measured From Front And Back View Videos, 40th International Society of Biomechanics in Sports (ISBS) Conference, Liverpool, United Kingdom, July 2022

PROFESSIONAL MEMBERSHIP

Student Member - International Society of Biomechanics in Sports

AWARDS

Internship Commendation Award <i>Awarded by NTU to the top 15% of the cohort for excellent work performed during the undergraduate internship.</i>	2023
Best Thesis Oral Presentation Award <i>Awarded by NTU at the 11th Lau Teng Chuan Physical Education & Sports Science Symposium.</i>	2022
ISBS Student Travel Grant <i>Awarded by ISBS to attend the 40th ISBS Conference.</i>	2022
Module Prize in Sports and Exercise Biomechanics <i>Awarded by RP to the top student of the cohort.</i>	2017

SKILLS

Programming: Python, MATLAB, R, Excel VBA, HTML/CSS

Software: SPSS, JASP, OpenSim

Languages: English (Native), Malay
